Buffing Machine

Buffing machine is using in polishing the tubes. We make two kinds of buffing machines:

Single Buffing Machine

This is simple buffing equipment, with the buffing wheel driven by the electrical machine at high speed. Rollers are driven by the reduction gearbox of another electrical machine. We can adjust the size of the diameter and the axis inclined angle of the rollers with convenience. A dust proof sheet may be added.

PG- 8 Buffing Machine
Zhaoqing City Feihong Machinery & Electrical Co., Ltd
Add.: Shuiji Village, DaChong, Duanzhou District, Zhaoqing City, Guangdong, China
Tel: 86-0758-2771912  Fax:86-0758-2743414  Mobile: +86-13424485791
Email: info@tubemachines.com  may@zqfeihong.com
Website:http://tubemachines.com  Skype: tube.machines

Using for polishing process of S/S tubes with Max. processing dia. of Φ16mm.

Remark:

Single buffing machine using in cartridge heater production, industria heater production, while PG-8 Buffing machine mainy for home appliances heater tube production.
